VOYAGER

Voyager is a free to download app which helps travelers around the world to book fly tickets and hotels, saving them time and efforts. Search and compare to find the best deals on cheap flights and hotels.

CHALLENGE

Our team was faced with the task of creating an application for tourists, which allows them to book flights and hotels with one click.

SOLUTIONS

- design concept

first we've thought through the design concept to make an app look good. Then we've made evaluations on how to ensure the fastest functionality bearing in mind the load that an app will experience while conducting such a challenging and delicate searching.

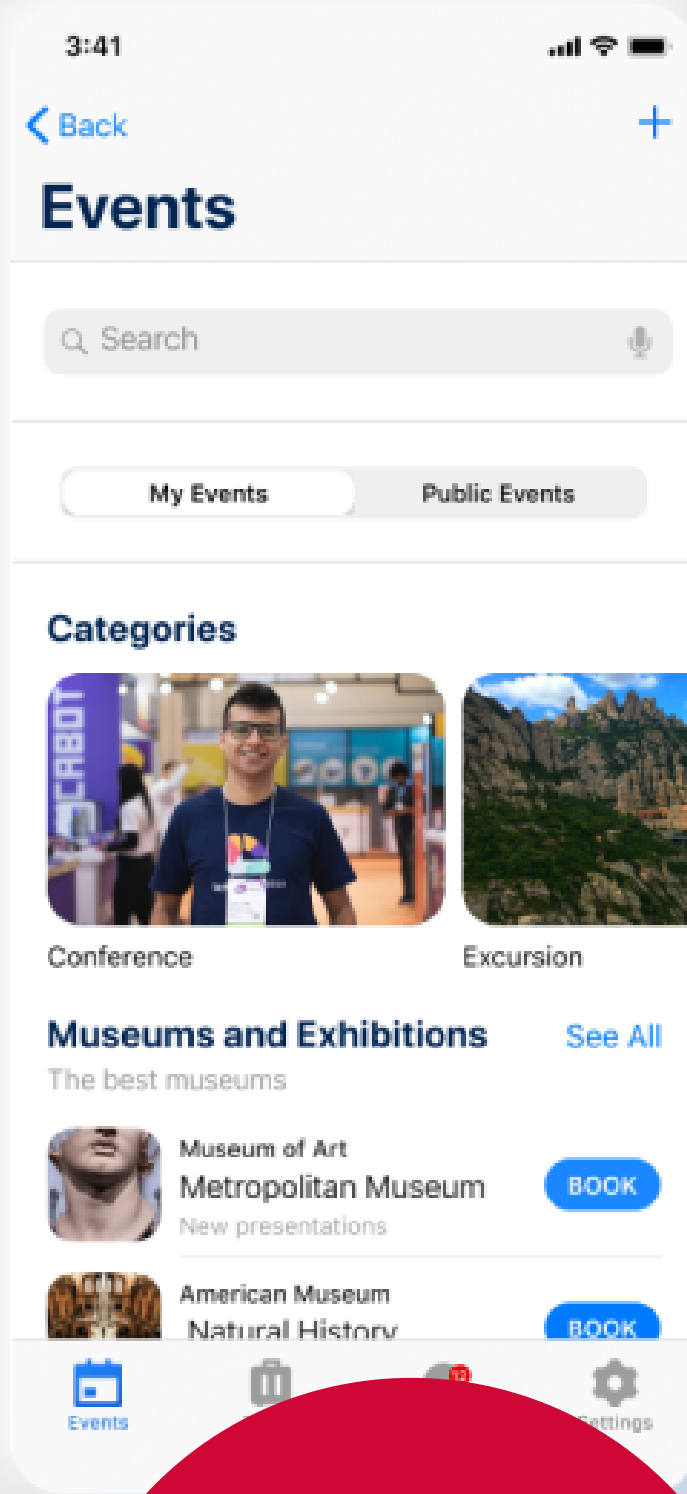

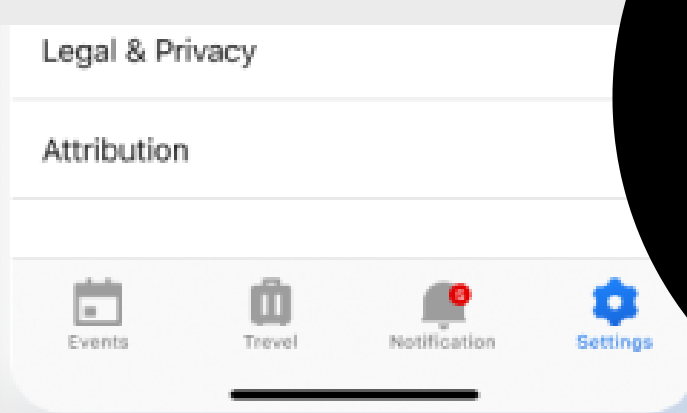

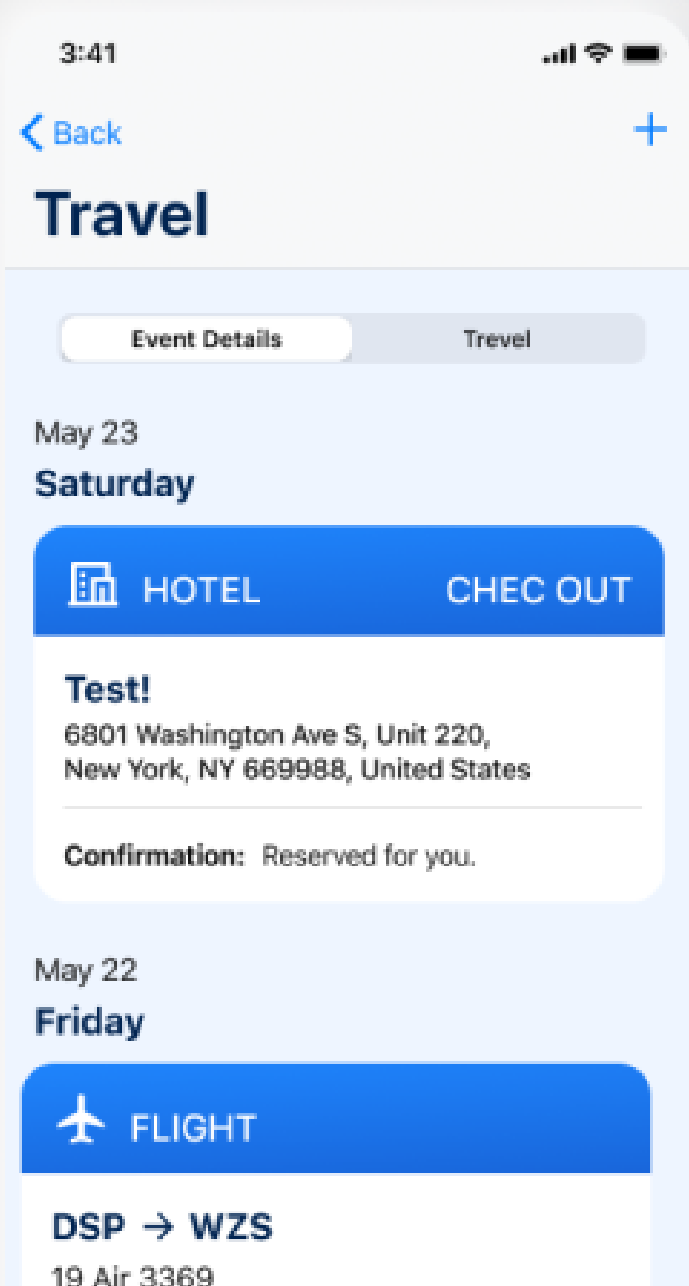

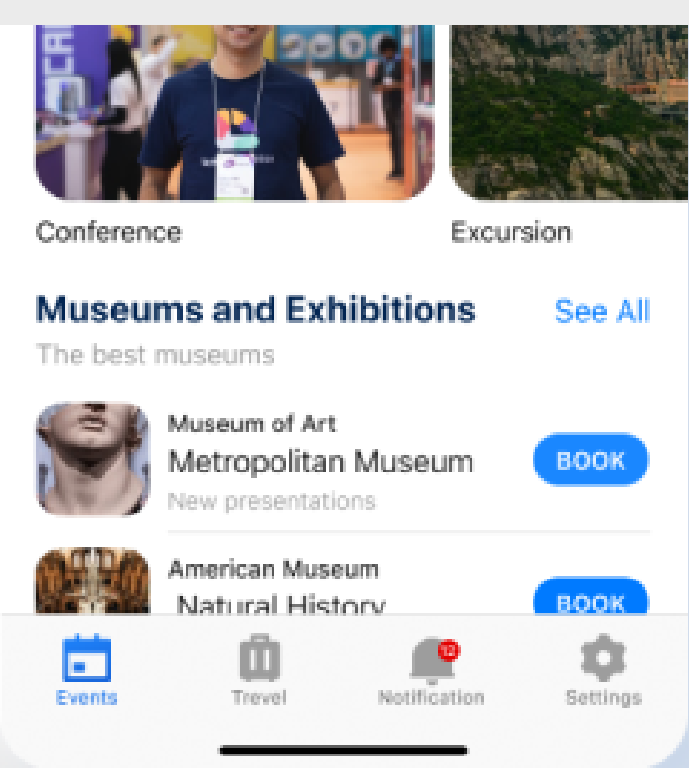

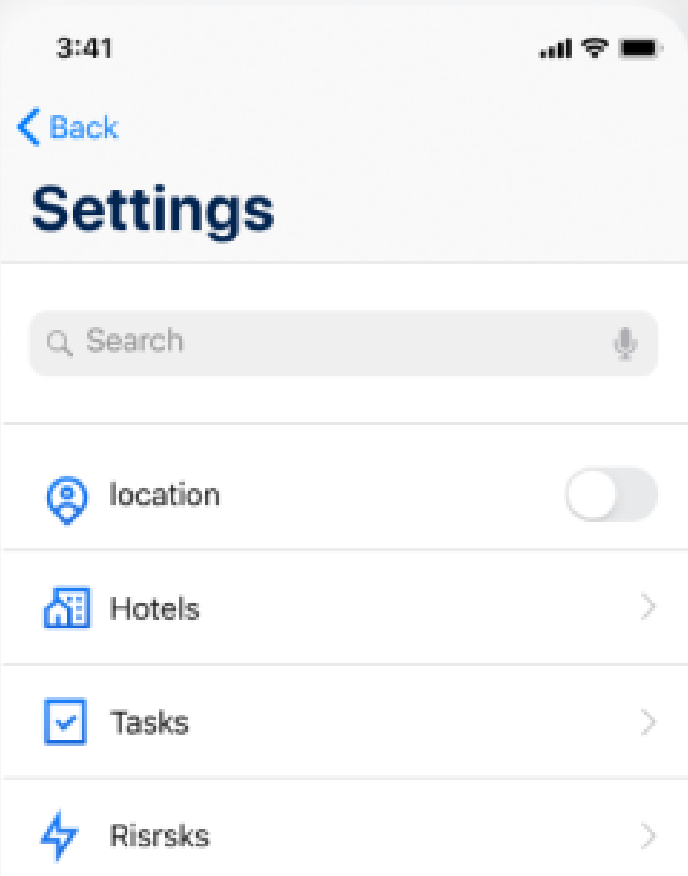

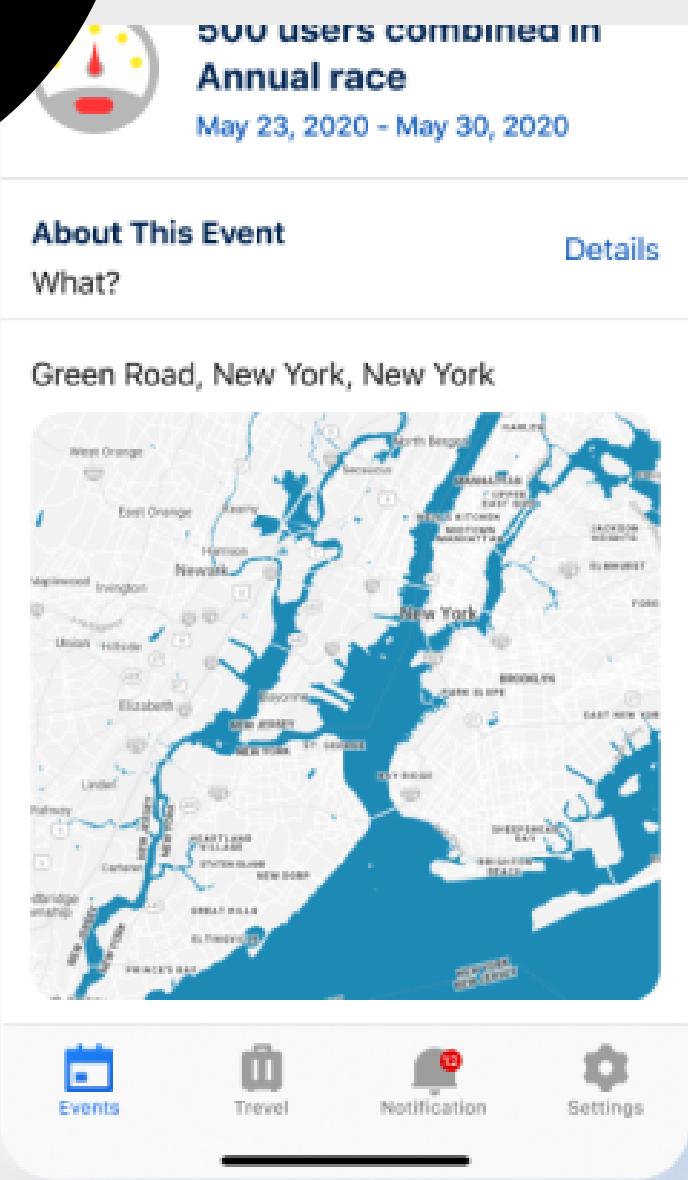

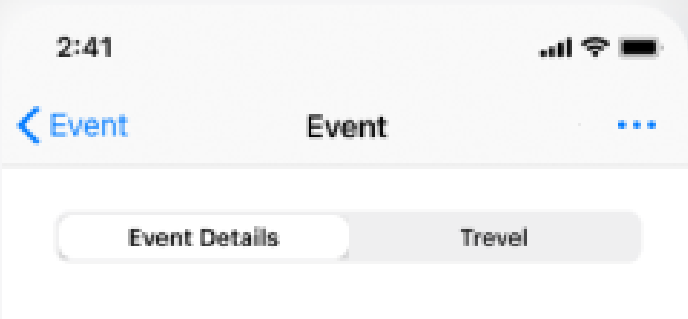

- developed a booking system

Easy Bookings provide a rapid, effective and cost effective solution to hotel bookings system. It is easy to use for both ourselves and online customers

- implemented a booking calendar

It allows travelers to book and plan their schedule easily based on their location and preferences.

BUSINESS TRAVEL APP

BUSINESS TRAVEL APP

The application for booking services, purchase of tickets, Uber, and a calendar of events, thus creating a convenient tool for time management and financial reports for both the venue host and all visitors.

CHALLENGE

Our team needed to create an application thanks to which it is possible to manage both offline and online events.

Our iOS development team took part in the creation of a tool that simplifies the organization, logistics and communication of participants.

BUSINESS TRAVEL APP

SOLUTIONS

- design concept

first we've thought through the design concept to make an app look good. Then we've made evaluations on how to ensure the fastest functionality bearing in mind the load that an app will experience while conducting such a challenging and delicate searching.

- developed a booking system

We developed a booking system for services, Uber and tickets

- integrated various services

integrated booking services, ticket purchases, Uber and an event calendar, which creates a convenient tool for managing time and financial reports both for the event organizer and for all visitors.
